

# Daniel Rogerson

## BSc Computing Technologies

An eminently enthusiastic and self-motivated individual, who is close to completing Computer Science at Royal Holloway University this year. Excellent communication skills with experience leading teams and interacting with clients. Can perform all steps in the SDLC and enjoys finding client solutions. Passionate about expanding my knowledge and working in a progressive environment. I am now looking to secure a graduate position focussing on frontend development with an ambitious company that will support my continued learning and development.

🔧 Frontend utilizing: Java, JavaScript, HTML5, CSS3, VueJS, ExpressJS, NodeJS, SceneBuilder, JavaFX and SQL  
🔧 Utilities: JUnit, TDD, Version Controls(Git, SVN)

- Current projects include a music statistic application using Spotify's API to visualise a user's listening history, recreating popular websites and a personal portfolio website.

## Work History

General Assistant, 04/2015 – 08/2017 | Tesco – Ashford, Middlesex

Provide efficient, quick service to customers and co-workers. Streamline daily tasks by providing myself and co-workers with organisational methods. Actively improve my communication skills by communicating with customers on a regular basis.

Work Experience, 11/2016 – 12/2016 | British Gas – Staines, Middlesex

Closely shadow graduates working in a fast-paced office environment. Worked assiduously with graduates to overcome genuine obstacles. Spoke to real clients when shadowing engineers, improving my customer service skills.
